Order thereon

It is presumed that the debris will be removed to some place outside the municipal limits and sold by auction and that the sale proceeds creditable to municipal funds, will be more than sufficient to meet the pay of the establishment now proposed. If so, the Dy Com is requested to state whether the daily removal to a place outside the municipal limits and disposal thereof can not be given

out on contract, thereby converting the Scarcities into a source of income to the Municipality. [2. Dated 28th March 1893.

To

The Chief Secretary to the Dewan
of Mysore.

Sir,

Adverting to Government Proceedings No. 14064 dated 20th Ultimo
D.F. 108-92
regarding my proposal to increase the conservancy establishment of the Closepet Municipality and to the employment of a peon to supervise the daily removal of debris &c. from the oil Mills and silk reeling manufacture in the Town, I have the honor, with reference to para 1, to state that the debris is removed to places outside the Municipal limits and is not at the disposal of the Municipality — under the

arrangement made with the manufacturers who are to remove the debris at their own cost. The dead silk worms are consumed by crows and kites while the refuse or sediments of oil mills are taken to fields and used for manure.

2. Referring to para 2, I beg to state that the peon is to put a screw on the manufacturers, who without this screw would prefer to live in filth and would not remove the debris. The employment of a peon is found absolutely necessary from experience. This peon is expected to prosecute defaulting men and has therefore a power which he may use if underpaid in making up the deficiency. I therefore consider that

5/ is too low a pay and beg ~~that~~ the rate originally proposed may be sanctioned.

I have the honor to be
